BUTTER.

THE

ECONOMY BUTTER CO

Ask the attention of n'l interested in the re-quetion of the extravagant cost of Eutter, to their practical and economical system of mak-ing pure prime Butter by aid of the

EXTRACT OF BUTTER PLANT. A brief allusion to the origin of this important discovery may not prove unlateresting. Among the authenticated records of the renowned Captain Cook's voyage around the world, is found the statement, that while so-journing for a short time on the Brazilian Coast of South America, he observed the natives using in the preparation of their food, a peculiar oil, which, upon examination, he round to possess the appearance, taste and flavor of Butter; upon turther inquiry, however, he ascertained that it was simply a substance that the natives distilled in a crude and inpericet manner from a sech and inxuring plant that arew spontaneously and abundantly in that warm tropical country. A few years ago an eminent Freuch chamist, white on a professional visit to the tropics, made numerons experiments with this remarkable production of nature, and succeeded in extracting a concentrated essence of the plant. The formula for its preparation, and the Sole Kight for the sale in this country are the excinsive property of this country by whom it was purchased from the original discoverer. We claim for this remarkable, yet simple and perfectly harmless preparation.

lst. That by its use a net gain of from 50 to 280 per cent. is made in the manufacture of Butter.

24. That Butter, which from use or whatever auve, may be strong, rancid, streaked o oarse-grained, and c imparatively useiess to energy use, by the aid of this Extract is to dored to its original reshlies and sweetness, in grain and even color.

3d. By the use of this Extract, one pound of left loss, tre h Butter is actually made from an plut of milk.

4th. That a pure and excellent table Butter an be made, at a cost of from 15 to 20 cents per ound. The co of expense wherein being But-er, which is the essential base. 5th. That Setter manufactured by the aid of this Extract is equal in every respect to the best Bu teams 'e by the ordinary method. 6.h. The Extract, after thorough analysis able chemists, is pronounced perfectly fr
